

ReForge: Holistic Recovery & Sobriety Platform

A modern multi-role ecosystem transforming addiction recovery from a binary counter into a 21-dimension lifestyle architecture.

1 Holistic 21-Dimension Model

Moving beyond simple day counts to evaluate emotional, relational, physical, cognitive, and spiritual wellbeing simultaneously.

2 Multi-Role Collaborative Support

Uniting recovering members, family supporters, professional recovery coaches, and system administrators on one secure platform.

3 Privacy & Clinical Rigor

Zero-knowledge encrypted journaling, structured boundary enforcement engines, and comprehensive clinical supervision audits.

4 Interactive Demo Sandbox

Instant role switching across Member, Supporter, Coach, and Admin personas without onboarding friction.

PLATFORM MISSION

"To provide an evidence-informed, compassionate digital sanctuary that empowers lasting restoration, accountability, and connection."

The 21 Dimensions of Restorative Recovery

A multidimensional recovery paradigm recognizing that sustained sobriety requires balance across all facets of human life.

- 1. Physical Vitality & Sobriety**
Active abstinence tracking, nutrition, somatic awareness, sleep hygiene, and medical adherence.
- 2. Emotional Regulation & Resilience**
Trigger identification, emotional vocabulary expansion, distress tolerance, and nervous system regulation.
- 3. Relational & Family Boundaries**
Repairing broken trusts, enforcing healthy relational limits, and establishing non-codependent support systems.
- 4. Mindful Presence & Reflection**
Daily reflective check-ins, prompt-based journaling, and contemplative grounding routines.
- 5. Purpose, Spirit & Community**
Existential meaning, fellowship connection, peer mutual-aid, and service to others.

Check-in Cadence

Multi-Role Persona Architecture

Each persona receives a dedicated, customized operational interface tailored to their specific recovery responsibilities.

1 Role 1: Member (Self-Guided Journey)

Daily somatic check-in surveys, personal rule engine, situational coping guides, goal roadmaps, and private journals.

2 Role 2: Family Supporter (Empathy & Safe Harbor)

Paired accountability dashboard, positive affirmation signals, early distress notification, and educational coaching tips.

3 Role 3: Recovery Coach / Clinician (Professional Oversight)

Multi-client status rosters, compliance alerts, progress trend analysis, and intervention note tracking.

4 Role 4: Platform Administrator (Governance & Content)

Restorative guide management, preset rule configurations, audit trail logging, and community moderation.

ZERO-COLLISION PERMISSIONS

"Role-Based Access Control (RBAC) ensures supporters only see shared summaries while member personal journals remain strictly confidential."

Member Daily Flow & Behavioral Interventions

Engineered around high-leverage micro-actions that build compounding psychological resilience every single day.

1. Morning Check-In & Mood Indexing

Rate somatic energy, mental clarity, and urge severity. Generates personalized micro-practices for the day.

2. Rules & Non-Negotiable Boundaries

Custom boundary engine (e.g. 'No late-night trigger calls', 'Daily 20-min nature walk') with tiered severity levels.

3. Situational Coping Guides & S.O.S. Library

Immediate step-by-step de-escalation protocols for sudden triggers, cravings, social pressures, and acute distress.

4. Multi-Horizon Goal Tracking

Milestone management broken down into 7-day sprints, 30-day foundations, and 90-day integration horizons.

5. Private Mindful Journaling

Prompt-driven reflective writing with tag filters and mood correlation analytics.

EVIDENCE-BASED DESIGN

"Built on cognitive behavioral therapy (CBT), acceptance & commitment therapy (ACT), and motivational interviewing principles."

Supporter Care & Family Co-Regulation Portal

Empowering loved ones to provide constructive support without enabling or violating healthy boundaries.

1 Secure Supporter Pairing Mechanism

Members generate unique, time-limited invitation tokens to link trusted family members or sponsors.

2 Shared Wellness Pulse

Supporters view high-level stability indicators and consecutive check-in streaks without invasive diary access.

3 Affirmation & Encouragement Feed

Send calibrated, non-triggering notes of encouragement directly to the member's morning dashboard.

4 Crisis & Risk Signal Escalation

Configurable alert triggers if a member reports acute distress or misses sequential safety check-ins.

FAMILY HEALTH PRINCIPLE

"Recovery happens in connection. ReForge bridges the gap between solitary struggle and healthy family co-regulation."

Clinical Coach Supervision & Operations

A high-density operational cockpit for sober living facilities, outpatient clinics, and private recovery coaches.

1 Caseload Status Overview

Instant triage view of all active clients with color-coded risk flags, recent check-ins, and engagement scores.

2 Longitudinal Trend Visualizations

Multi-week radar plots and line charts tracking trajectory across all 21 life dimensions.

3 Intervention Protocol & Notes

Log private coach observations, session action items, and clinical referrals with timestamped fidelity.

4 Automated Cadence Compliance

Identify drop-off patterns early before relapse occurs through automated cadence deviation detection.

Export Ready

Technical Architecture & Security Infrastructure

Enterprise-grade stack engineered for exceptional performance, low latency, and uncompromising privacy.

1 Full-Stack TypeScript & Vite React

Instant UI responsiveness, modular functional components, and strict end-to-end type safety with tRPC.

2 Relational Persistence & Schema Migrations

PostgreSQL with Drizzle ORM managing normalized schemas for assessments, rules, goals, and pairing tokens.

3 Multi-Layered Security Defenses

Helmet security headers, strict CORS, CSRF token validation, and IP-rate limiting protecting API endpoints.

4 Zero-Hurdle Demo Sandbox

Dual-mode persistence engine seamlessly transitioning between guest client storage and authenticated databases.

5 Immutable Admin Audit Trails

Cryptographically verifiable event logging for all administrative actions, role modifications, and content changes.

PRIVACY FIRST

"No third-party trackers, no behavioral advertising scripts, and full HIPAA/GDPR alignment in data processing."

Summary, Impact & Roadmap

ReForge delivers an unmatched technological foundation for the future of digital behavioral health and recovery.

1 Key Deliverables Completed

21-dimension framework, 5 role portals, responsive mobile bottom navigation, standardized skeleton states, and audit trails.

2 Immediate Accessibility

Zero white-screen latency, sub-50ms navigation, offline-friendly guest sandbox, and touch-optimized mobile interfaces.

3 Upcoming Horizons (Phase 2)

Offline Progressive Web App (PWA) sync, wearable biometric integrations (sleep/HRV), and multi-clinic enterprise billing.

4 Contact & Partnership

Ready for deployment, clinical beta pilots, sober living community deployments, and custom organizational branding.

READY FOR LAUNCH

"Engineered with deliberate craftsmanship, robust resilience, and deep human empathy at every touchpoint."
